What is doming: The doming process adds value to a medal by coating the surface with a thick layer of resin up to approximately 2-4mm.

Resin is a very durable, tough, long lasting product which cannot be easily scratched or dented. In short: It looks like a layer of glass over the sticker, making the sticker permanent and protected.

**R3.50 - R5 per medal ekstra**

**Doming**  
(optional)

Only for orders of 100 medals or more -  
Price on request -  
1-2 weeks for delivery -

**Ribbon**  
Printing  
(optional)
